Coastal Diagnostic Imaging

Quick Notes:

Patient Chart

Click on the patient's name, in blue, from any Worklist to access their patient chart.

Inside the patient chart, you will be able to view reports and visit forms and view the DICOM images by clicking the DICOM icon.

Notes

- Clicking Patients under Search at the top left will show all your recent patients.
- If you forget your password, click the Forgot Password link on the main login page to reset your password.
- If you know your password and want to change it, log in and click your name in the top right corner. From here, click Change Password.
- Clicking the DICOM buttons will launch a window to view exam images in iConnect.
- Reports show in the patient chart without the header information. Printing them will include the header information, to include the facility and patient information.
- You can print any documents from the patient chart.
- You cannot modify the patient's demographics; you can only view them.
- You can add additional filters in any view by clicking the 

button.
- If you need to reset your multi-factor authentication phone number, please contact your Radiology Engagement representative so we can update your account.
